

Recording Options for Artists Updated March 2012

The Triple Door's unique, intimate setting, pristine sound, and attentive, enthusiastic audience combine for a memorable show. We offer two ways to capture your show for posterity:

1. **2-Track Direct to Audio CDR**: \$10.00 incl. tax. Console Matrix Out-AES/EBU Digital Direct into **HHB CDR-882 Professional Dual-Drive CD Recorder**. This is a dedicated mix which includes all inputs from the stage and a stereo room mic. Not just a "house mix", this is a discrete mix that can be tailored for the recording. The results can be quite acceptable for personal listening and sharing with friends. This is also the method used for radio broadcasts originating from the Triple Door.
2. **NEW: Multitrack Recording for Studio Mixdown**: \$200.00 plus tax. Up to 48 tracks available via Console Pre-EQ AES/EBU Digital Direct Out into **Tascam X-48 MkII 48-track digital recorder**. Multitrack sessions can be copied to **DVD** or external **USB 2.0** or **eSATA** drives. File Format: 44.1 kHz Broadcast WAV.
3. **Multitrack mixdown** is now available, \$50/hr.
