

## FUZZY BUZZY BUZZING BUG

Gm C  
lately everytime that I try to go to sleep

Gm C  
I hear a tiny buzzy sound right above me

Gm C  
I toss and I trun and I flip and I flop

Gm  
I switch on the light and the buzzy sound stops

fuzzy buzzy buzzing bug

Gm C  
I put my fingers in my ears and a pillow on my head

Gm C  
I sleep in the bathroom on the floor without a bed

Gm C  
when I'm just about to slip into a dreamy place

Gm  
I hear that microscopic sound right beside my face

Gm C  
so I go down to the basement to see if that will work

Gm C  
I have to get away from that zippy little jerk

Gm C  
dark and cold and quiet there's no sound in here

Gm  
but then there it is again right beside my ear

Gm C  
I finally give up and start buzzing along

Gm C  
the two of us harmonizing fuzzy little songs

Gm C  
we both fall asleep at a quarter past three

Gm C  
still humming and buzzing some sleepy melodies
