

## WIDE BRIGHT EYES

A  
in your wide bright eyes  
D A  
you see your mom and daddy looking at their love  
and that love will help you lie still  
Bm D E  
as we cradle you and rock you from above  
A  
in your wide bright eyes  
D A  
you see the moon through the pines so wide and bright  
you are safe here in our arms dear  
Bm D E  
even though the snow is cold and lonely white  
A  
in your wide bright eyes  
D A  
you see the birds fly and glide in the sky  
they come down to land on me and you  
Bm D E  
and stay a while even though they're shy  
A  
in your wide bright eyes  
D A  
you see a long unbroken string of happy days  
if I could I would make it understood  
Bm D E  
that everything you need will come your way  
A  
in your wide bright eyes  
D A  
you see a dome of darkness lined with little lights  
what else are days for but to be one more  
E D A  
to be added to the one that's turned to night  
E D A  
go on and add it to the one that's turned to night  
E D A  
c'mon let's add it to the one that's turned to night  
E D A  
go on and add it to the one that's turned to night
