

## ROUND AND SQUARE

D G D A  
I remember the day when round met square  
D G D A  
at the barbershop getting hair cuts for their hair  
D G D A  
they both got mohawks and started to stare  
Em G A Caug G  
that was the day that round met square

D G D A  
nobody thought that they could be friends  
D G D A  
they were obviously different and then yet again  
D G D A  
they both liked ice cream and walks in the wind  
Em G A Caug G  
but still nobody thought that they could be friends

D G D A  
the national news reported the pair  
D G D A  
walking in the park they were photographed there  
D G D A  
everyone wondered how a round and a square  
Em G A Caug G  
could possibly make such a cute little pair?

D G D A  
other shapes saw that right was right  
D G D A  
polygons and rectangles came out at night  
D G D A  
a cube and a cone were hand in hand in daylight  
Em G A  
and everything was starting to feel alright

D G D A  
these days you can see a straight line  
D G D A  
out with a point at a restaurant to dine  
D G D A  
and it's hard to believe that there ever was a time  
Em  
when a round with a square was a national news headline
