

## LITTLE SLEEPER

          D  F#7  
close your eyes little sleeper close your eyes little sleeper

      Em                          A  
our love is deep and you can sleep all

D  E7  
night little sleeper close your eyes

      Em                          A                          D  
you know we've got you tight so close your eyes

          F  C                  D  
there are garbage trucks dumping garbage but nowhere near

F                          A#                          D  
tidal waves and hurricanes don't happen here

      C                          A#                          D  
the goblins are all napping so they can't give you a fright

      G7  A7  
so get under your covers and we'll leave on the light

F Fdim Dm A# F C (X2)

          D#          A#                          C  
and all you want is a mouth full of thumb

      D#                          G#                          C  
and tickle spiders to tickle you 'till you go numb

          A#                          G#                          C  
don't think about those monsters as they pass right by our home

      F  G  
just turn off all your worries 'cause you are not alone

C  E  
close your eyes little sleeper close your eyes little sleeper

      Dm                          G  
our love is deep and you can sleep all

C  D7  
night little sleeper close your eyes

      F  G  
you know we've got you tight (X3)

          D  
so close your eyes
