

## JELLYFISH JONES

Bm                      F#m                      Em                      A  
Jellyfish Jones has got no bones but if he did where would he go?  
he would

D                                      A  
tap dance live on a TV show get in a boat and row row row  
G                                      A  
jump high up on a trampoline but he's stuck in the sea

D                                      A  
try to ride a mechanical bull reach the pedals on a bicycle  
G                                      A  
win the big basketball game but he can't and that is a shame

D                                      A  
sign up to learn how to belly dance get fitted for some jelly fish pants  
G                                      A  
bowl a strike at the bowling lanes but he's under the waves

D                                      A  
hula hoop until he's blue in the face run run run from place to place  
G                                      A  
climb and jump and stomp around but he's stuck in the sound

D                                      A  
fly down a hill on roller skates slide on the ice in a figure eight  
G                                      A  
sky dive from five thousand feet but he's stuck in the deep

Bm                      F#m                      Em                      A  
Jellyfish Jones you don't need no bones be happy that you can float away

D                      G                      D                      G                      D                      G  
jelly fish don't need no bones      (float away) (x3) so float on jellyfish (x2)

D                      Bm      Gm                      A  
(whoa) under the sea (no bones) there is no gravity (x2)  
D                      Bm      Gm                      A                      G D G A# D  
(whoa) under the sea (no bones no bones)
