

BE IN THE SEA

oh the sky is a cloudy ocean full of creatures that fly so free
but a poor sea horse would be way off course and would rather be in the sea
oh the dessert is a sandy ocean full of creatures that play hide and seek
but a squid in the sand can't stay hidden and it would rather be in the sea
oh the jungle is a woody ocean full of creatures that swing tree to tree
but a dolphin can't swim in the plants and would rather be in the sea
oh space is a boundless ocean full of creatures that we can't see
but an octopus in weightlessness would still rather be in the sea

oh the night is a silent ocean full of creatures that sleep
but a great white shark prefers a watery dark and would rather be in the sea
oh the sea is a watery ocean full of creatures that live in the deep
and there's nowhere that they would hang their hats
if it wasn't to be in the sea it's got to be in the sea
they just wanna be in the sea it's got to be in the sea
look and see what you can see in the sea
