

UNDERGROUND

 D G
when you're underground the roots from the trees

 D G
will tickle your face and elbows and knees

 Em Bm
as you dig and dig you might meet a grub

 C G A
munching on the dirt under your favorite shrub

 D G
when you're underground could be day could be night

 D G
as you dig even deeper down you just might

 Em Bm
meet a mole in a tunnel watching tv

 C G A
he'll invite you in for a hot cup of tea

 D G
when you're underground you'll see the worms looking proud

 D G
all dressed for the show what a good looking crowd

 Em Bm
and listen to the dirty violins and the flutes

 C G A
the concert hall is made of rocks and roots

 D G A
when you're underground (yeah yeah yeah)

 D G
when you're underground you'll hear the mushrooms sing

 D G
sing about the dampness and the rocks and things

 Em Bm
when one sings high the others do too

 C G A
they sing rock and roll and the blue blue blue blues

 D G
when you're underground you might miss the sun

 D G
but there are plenty of muddy funny ways to have fun

 Em Bm
you could do a dance with the beetles and the snakes

 C G A
the people up top will think its an earthquake
