THE PAIRS

BIOGRAPHY

Family -- blood and chosen -- is the cord that ties The Pairs together, and a desire for connection is what ties them to the world. A gentle mix of choral, theatrical and gaelic roots.

...

With three songwriters at the helm, The Pairs create a diverse repertoire using their individual lives as inspiration. Employing music as a tool for sharing stories of life's challenges, hope and hilarity, The Pairs inherently connect with their audience through their emotion-full performances. Powered by three classically trained vocalists and a former punk-rock drummer, these lifelong friends offer a unique blend of harmony and rhythm that will hug your eardrums and inspire you to dance!
