

## **ROCK HARD**

### **Verse 1:**

Took a ride down 95  
Headin out to Vegas to leave it all behind  
Life's to short, aint got time to be slowing down  
Hard times just getting by  
Don't worry 'bout tomorrow, make you lose your mind  
Ride to Live, that's what they say

### **Chorus:**

So go-on, turn up the radio  
Gonna go where nobody knows  
Think it's time that we saddled up  
Well come-on everybody get your kickstands up

Rock Hard, Ride Free  
You aint living, living on your knees  
Don't you think it's time that you made a stand  
Ride Hard, Die Free  
Don't live with regrets, be who you wanna be  
The wind in my face is a means to an end, but don't let it end

### **Verse 2:**

Crossroads up ahead  
Gotta make change or wind up dead  
Lost all control of what's going down  
Throttle up, gotta get away  
I aint looking back, just living for the day  
I've learned how to fly, got my feet off the ground

### **Chorus**

### **SOLO**

**½ Chorus- end.**
