

# **SOLDIER**

## **Verse 1:**

I am a soldier, been gone for way to long  
Yesterday's just a clouded memory  
Another day in a foreign land, riding out with a gun in my hand  
Embrace the darkness surrounding me

## **Chorus**

I hope my family never sees  
The Monster that lives inside of me  
The things I've had to do, where the nightmares they all come true  
Wonder if they'll go away

## **Verse 2:**

Keep calm, soldier on  
Crosshairs steady, another notch in my gun  
But I lost my friend the other day  
Another year has passed me bye  
Another chance to make it out alive  
Wrote a letter said I'm coming home

## **Chorus**

## **Verse 3:**

A land divided that's where I'm from  
Where some punk stands on the freedom we've won  
Then complains cause it's not enough  
But you and I we've made our stand, made a vow to defend this land  
And we know that freedom isn't free

## **Chorus**
