

Switching Gears

V1: You say - you know - just how far to let me go, but now we've switched to overdrive

No time - can't wait - its ok for you to stay, I know just how to cross that line

We're gonna take a ride

Chorus:

Let's get on the highway and run

Switch lanes, gonna have some fun

I feel it drawing near

Hold on, I'm switching gears

V2: Go down - no fair - lose control when you touch me there- makes me lose my mind

One hand - one drink - and now you've put your spell on me - you make me feel so alive

Makes me lose my mind

Chorus

Let's get on the highway and run

Switch lanes, gonna have some fun

I feel it drawing near

Hold on, I'm switching gears

Solo

V3: Hold on - no brakes - push it hard, give it all she'll take, aint no signs of slowing down

Oh yeah - once more - rock it hard before you hit the floor, then we'll make another round

We aint slowing down

Chorus-

Let's get on the highway and run

Switch lanes, gonna have some fun

I feel it drawing near

Hold on, I'm switching gears
