

UNBROKEN

Verse 1

As I drift along, the storm is getting nearer
When I look inside, a face is getting clearer
Who have I become, always on the run. Can't get away from the stranger in the mirror

As I walk these streets, winds are getting colder
When I look inside, see I'm getting older
Whats left of me, no one else can see. Can I change my path before my time is over

Chorus

Will you stand or will you fall
Take the chance and risk it all
Not afraid to stand your ground when your outnumbered
Will you rise above it all, when your back's against wall
You've got nothing left to lose, will you be unbroken

Verse 2

Whispers never spoken before
Secrets I can't hide anymore
Demons in my head, can't hear a word you said, can't break this curse that keeps
knocking on my door

As I drift away, days are getting longer
Still lost inside, spells getting stronger
Nothing left to say, I can't get away, I'm locked inside but still I sat and wonder

Chorus

Solo

Chorus

Be Unbroken...Be Unbroken...Will you be Unbroken
