# ERICA AMBRIN

## THE SONG BIRD

Erica Ambrin is a singer/songwriter who captivates the audience with her soulful voice and dynamic style. Growing up in Southern California with a DJ father, her eclectic taste in music has influenced her writing, giving you vibes of Erykah Badu, Lauryn Hill, and The Alabama Shakes. She provides an exceptional experience through her sound and truly draws you in. Her music is raw and honest while comfortably inviting you into her space. Erica attended Hollywood Academy of the Arts and after performing throughout the LA area, moved to Sacramento and released her debut EP 'Suga'.

Erica got booked for gigs all over Northern California and beyond, gaining popularity after making it to Hollywood on American Idol. This lit fuel to her fire connecting her more with her love for writing. She moved to Maui to explore and self-reflect and the ocean inspired her very first hip-hop project 'Lucid Dreamer' which was released in 2018.

In addition to her solo career, Erica created a space for musicians from all walks of life, birthing The Eclectic Soul Project. A jam band homage to music. She is currently back in Northern California and in the works recording a new album. There is much more coming from this budding star. She gives hope, producing timeless music that can be played for years to come. You can find her first official music video 'Paper Crown' on [YouTube](#).
