

## Nothing but the Lord (from “After All These Years”)

Standard Tuning

Intro – G, Em, C, D (2x)

V1

                  G                  Em                  C                  D  
When my life on earth is over, what will I have to show  
          G                  Em          C  D          G  
Nothing even matters, nothing but my soul  
                  G                  Em                  C                  D  
When my last breath is taken, when pain and sorrow are no more  
          G                  Em                  C          D          G  
What will I have to show for, nothing but the Lord

### CHORUS

                  C  D  
For He has walked with me when I was weary,  
                  C  D  
He has carried me when I was sore  
          G                  Em                  C  D          G  
When I am in heaven, nothing matters but the Lord

V2

When friends fall all around me, and my life seems so bare  
Nothing even matters, as long as He is there  
Everything I’ve hoped for and everything that I’ve dreamed  
Add it all together, it can’t compare to Him

### CHORUS

V3

When I think of Jesus I see Him on the cross  
Beaten, bruised, and broken He saves me greatest loss  
Every single burden was crucified with Him  
And every persecution was worth it in the end

### CHORUS
