

Good News

1.

It was just another day on the job
For shepherds on a hill guarding their flocks by night
Maybe they warmed by a fire talked about tomorrow
Is this all there is to life
But then a light filled that midnight sky
And angels brought news of a Savior
Joy and amazement replaced their fear
And suddenly life found a purpose

Chorus

We bring good news we bring great news
Hope has been born a promise delivered
The mighty King of glory
With His infinite love has come down
Rearranging our destiny

2.

So it's just another day on the job
You go through your routine trying your best to survive
Questions without answers a past that's left you broken
Is this all there is to life
Now we all have our scars and failures
But we've been covered by the blood of a Savior
Trade your emptiness for salvation
And He will make all things new again

Bridge

Each of us had been condemned
Death would be our punishment
But love took our place in the form of a baby
Making right all the wrong
Exchanging our sorrowful song
For the song of redemption
