

I Told You So

[Verse]

I don't trust you now
Since you broke my ship when you broke down
So take your medicine
And stay the hell away from me we're no longer friends

So throw a dog a bone
"My Love" has hit the rocks in parts unknown
It's sinking like a stone
But I won't go down with the ship I wouldn't dream of it

[Chorus]

We all knew I'd need some convincing
Just to carry through with this thing
If you need me I'll be listening
For that writing on the wall
The stumble 'fore the fall and I'll be gone
Na na na na na I hate to say I told you so
Na na na na na I hate to say I told you so

[Verse]

And then you come around
You try to play the part of the sad clown
But I'm not buying it
I tried to help you out and this is what I get?

I tell you when it rains it pours
I've got problems of my own I don't need yours
So take your medicine
I'd like to wish you well in your self-created hell

[Chorus]

We all knew I'd need some convincing
Just to carry through with this thing
If you need me I'll be listening
For that writing on the wall
The stumble 'fore the fall and I'll be gone

Na na na na na I hate to say I told you so
Na na na na na I hate to say I told you so

There's that scratching and the scrawl of the writing on the wall

[Chorus]

We all knew I'd need some convincing
Just to carry through with this thing
If you need me I'll be listening
For that writing on the wall
The stumble 'fore the fall and I'll be gone
Na na na na na I hate to say I told you so
Na na na na na I hate to say I told you so
