

Sweet Love

I can bash the candle
I can bleed the weed
I can buff the banana
Just to let off some steam
You can churn the butter
You can flick the bean
You can pat the bunny
You know what I mean

You know it ain't the same without you baby to hold my hand
This loneliness is more than I can stand so come on make sweet love to me

I can pound the flounder
I can walk the dog
I can paint the pickle
I can flog the log
You can butter the biscuit
You can polish the pearl
We can be together babe
Come on and give it a whirl

You know it ain't the same without you baby to hold my hand
This loneliness is more than I can stand so come on make sweet love to me

You say that it's all over
No more booty calls at night
You said it isn't right
But neither found another
So I'm begging darling please
If I get down on my knees

I can crank the shank
I can cork the bat
You can scratch the patch
You can stroke the cat

I can choke the chicken
I can loop the mule
We can be together babe
Now don't you be cruel

You know it ain't the same without you baby to hold my hand
This loneliness is more than I can stand so come on make sweet love to me
