

# Honey Took the Money

---

I threw the baby with the bath water and said goodbye to that town  
Went looking for the funky people they're the ones who wanna get down  
I nursed that wreck up across the state line  
Find a little honey gonna have a good time

Well I got more chicken than KFC  
The whole cell block will be proud of me  
I catch a little speed and the madness begins  
Honey starts a stick up and I jump right in  
But Honey had some other plans I found out  
Honey took the money and ratted me out

I ain't one to go down without a fight  
It took six of 'em to get me in the squad car that night  
If I wasn't on parole I probably would've lied  
If I wasn't on the come down I probably would've tried  
I'll catch another long stretch there's no doubt  
'Cause Honey took the money and ratted me out
