Tommy's unique guitar style, soulful vocals and thought provoking lyrics have been winning audiences around the world for the past decade. This latest release is sure to win fans of many genres.

From the lead off bluesy shuffle "Wrong Road" that immediately gets the listener moving, right into "Night to Day", a groove filled blues rumba straight out of Chicago. The title track "1000 Reasons" paints an early 70's classic rock vibe and ponders questions of how we treat our fellow humans. Tommy showcases his slide chops on the fan favorite, second-line groove "Humble", "Same Things", and the instrumental "Sugar Drive". The album can be downloaded on most streaming platforms. Physical copies also available.

**"Succulent jams from Tommy and Co!
His viscous slide tone, reminiscent of
Warren Haynes, is a healing, aural salve.
I can dig it!"**

GREG KOCH, GUITARIST

**"1000 Reasons is one you'll want
in your collection....and I can tell you a
million reasons why!"**
