DNA for Genealogy by Dennis Hogan

At <http://www.dennisahogan.com/lectures-and-handouts> see the following file for slides of this presentation: DNA for Genealogy

Major Vendors:

[Family Tree DNA](#) (FTDNA)

[AncestryDNA](#) (from ancestry.com)

[23andme](#)

[MyHeritage](#)

[GEDmatch](#) (major cross-vendor database, does NOT sell tests)

The Leeds Method:

You've received your matches. Now what? The Leeds Method developed by Dana Leeds may be the answer. Her blogs lead you step by step through the amazingly straight forward process. Read all of her blogs but start with this one:

<https://dnawithdana.com/dna-color-clustering-the-leeds-method-for-easily-visualizing-matches/>

Roberta Estes explains how to use the Leeds Method with examples for matches on Ancestry, Family Tree DNA, MyHeritage, and 23andMe:

<https://dna-explained.com/2018/09/26/the-leeds-method/>
