Bell Vet Services
Wetaskiwin, Alberta

"In response to your inquiry about the use of **ALFA TEC** alfalfa cubes, I can say we have fed cubes to our horses and to our client horses for about 5 years now. We have found the cubes provide us with a mold free consistent quality product that can be easily measured to ensure our staff can provide proper nutrition to the horses on a daily basis. The horses quickly adapt to the cubes even if they have not had them before. We have found cubes to be a very useful product."

Dave Bell D.V.M.

Wilderness Village Trail Rides
Rocky Mountain House, Alberta

"We at Wilderness Village Trail Rides (located at Crimson Lake, 14 km west out of Rocky Mountain House, Alberta) wanted to let you know how happy we were with the **ALFA TEC** Cubes. Ben of Busy Bee Delivery has been supplying us with the cubes and we are very surprised and excited about their convenience and portability (much easier to shovel some into a wheelbarrow and feed the barn). This is a product that the horses thrive on, and it is a very efficient and clean way of feeding."

Janice Kay Lea, owner
Wilderness Village Trail Rides

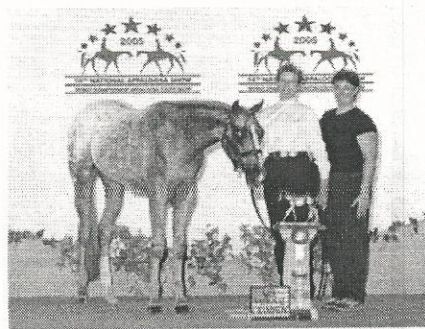

Hennessy Racing Stables
Millet, Alberta

"Hennessy Racing Stables has been feeding **ALFA TEC** cubes for over 20 years. They are dust free, more economical than hay, and full of the nutritional requirements needed by our stable of athletes. The horses all eat and digest them very well, and with the success we've had in the past, we are not about to change our feeding program."

Knox Appaloosas
Sherwood Park, Alberta

"The quality of the **ALFA TEC** cubes definitely gave my horse the edge. The nutritional standards and consistency in their products are a huge help getting the show conditioning necessary to win and keep winning."
