Bb = Capo 3 in G

V1

G **C** **D** **G**
It seems like its been a while since I seen your blues eyes and your black hair
C **D**

in a silhouette dancing in the night

G **C** **D** **G**
I've been going down this same ol' highway for so long
C **D**

I can't even tell I'm pointing right

G **C** **D** **G**
Just the other day I was thinking about you and that one night
C **D**

we got high and stayed out all night long

G **C** **D** **G**
drinking your grandaddy's homemade wine coming pretty close to falling
C **D**

if it wasn't for the dawn

Em **D**
I knew it was over as quick as you kissed me

C **B/D** **Am** **D**
but baby it kept me rolling all the way home to Tennessee and now

Chorus:

G **C** **D** **G**
I'm coming back to you Carolina tonight
G **C** **D** **G**
I'm coming back to you Carolina tonight

V2

I can still taste the whiskey on your breath
and my heart makes up the words we left unsaid
and never knowing is weighing heavy on my mind
so did you really mean the words that you whispered that night when you said
I was everything you wanted for so long
well baby I'm northbound on '85 hoping you're still singing our song

Chorus:

Bridge:

Em **D**
I'm sick and tired on livin' with the blues
Em **D**
it's driving me crazy so what else could I do
C **B/D** **Am** **D** **G**
but get these wheels turning 'cause my hearts burning for you

Chorus:
