Jim is a true musician, super knowledgeable, and super fun. He is an amazing singer. My singing has improved ten fold just from playing and singing along side of him. I super recommend Jim Funk!

I have relied upon Jim's gifted ear for accuracy, and clarity for the road going forward for two decades now. What began as bass guitar lessons in 1987 had over time transitioned to guitar lessons to raise my game as a singing & solo guitar act. Most recently I have enlisted him to identify and correct the bad habits that have all but ruined my voice and career as a solo performer. I am already feeling an improvement in my singing after a few short weeks, most noticeably in my vocal stamina. I can't afford NOT to hire him for what he is so obviously gifted in and passionate about. His timely intervention just might have saved what little "career" I may have left.

Jim is an excellent vocal and music instructor. He has worked with both of my high school daughters on keyboard, vocals, guitar and general performance. He is wonderfully patient, extremely flexible (this has been super important for us as we drive 1/2 hour to see him) and talented, still performing himself all over the bay area. He works with the student on what they want to accomplish and sets goals with them individually. I would highly recommend Jim.

We drove from the North Bay to work with Jim. My daughter's confidence soared every time she worked with him! He is more than just a guitar teacher. As a professional musician, Jim helped my daughter not only get better at her guitar skills, but he also helped her to find her own unique voice, work on mic and performance skills, and prepare for professional recordings. He is very calm and encouraging, detailed about technique, and also flexible allowing my daughter to work on her own choice of songs. He also produced and reordered her first original song which was an extremely fun experience. I highly recommend him! Link to her song he produced is youtu.be/r_7TQHllzOc

I am a former student of Jim's and I would like to give him my highest rating. I have taken lessons in vocal and guitar with a variety of teachers, and I can say with confidence that Jim was the most outstanding teacher I have had. I had a very busy schedule with school, but Jim was always extremely accommodating and very flexible. Unlike many other teachers, I was able to choose a majority of the music we worked on during our lessons for both voice and guitar. If you are looking for a teacher who is flexible, constructive, and experienced, Jim is absolutely the perfect fit for you. In addition to taking music lessons, Jim also helped a few friends and myself record a song in his studio to produce a video! He has been so supportive and such a great musician to work with.
