Come with me and we'll see  
What exciting things you and I can be  
Come with me, just believe  
That the world is waiting just for us to set it free

Come with me, it's the key  
The answer to your dreams,  
Look and you will see  
Things unfold as they should be  
All the pieces fall in place in perfect harmony

And we don't know what we'll find  
Searching in this world that's kind  
Give a little faith and baby you will see

Truth is right there in your heart  
You and I must play a part  
Facing all the choices  
that have led us to be here

Come with me heed my plea  
Creation calls us, to, be what we must be  
Move beyond, this mystery  
Happiness is within reach of this I guarantee

solo

No one knows just what we'll find  
Living in this world so kind  
Carrying our faith inside for all to see

Truth is right here in our hearts  
That we all can play a part  
In a world that's waiting  
Just for us to set it free

Come with me heed my plea  
All creation calls us, to, be what we must be  
Move beyond, this mystery  
Facing all the choices that have led us here you  
see  
Happiness is within reach of this I guarantee  
In a world that's waiting just for us to set it free
