Daughter my daughter  
Created life  
Pure smiles and sunshine  
Conquered my heart  
How can a hand soften a man? (bis)

My only daughter  
I sang for you  
Tales from a father  
To charm your youth  
Castles of sand along the shore (bis)

Sad as a sunflower  
Under an August moon  
Those summer days have passed too soon

Tears fall like water  
To clean the wounds  
That we would all prefer  
To send off in a balloon  
Let fade away just like a tune (bis)
