

Lisa and Mary came highly recommended to me from a friend. I just went thru a very emotional time, and thought I was not ready for a pup, but my friends told me that is exactly what I needed and urged me to contact them. I told Lisa about myself and she asked many questions about how I housed my dogs and what activities I did with them etc. I also had to give her at least 3 references. I guess I passed the test. Lisa told me there was a litter on the ground that suited my needs from her roommate Mary Kline from OffOn BC's litter of Shiver X Sooner. I told her temperament, health, structure and drive were all important to me. I also wanted my agility prospect to be able to think thru that drive and be biddable with a good work ethic. Lisa and Mary told me they had just the pup for me. After waiting several weeks, Fringe finally arrived. She has met every expectation and dream. She is everything I asked for and so much more. She always tries and gives me 110% percent, she is so smart and wants to please me. Her work ethic is amazing. She was first born in the litter and this trait still remains. The first out the door, but also she must be the first one in. At night she knows when I am going to bed and must be the first one up the stairs. She is the first in her crate when I leave for the day.

That kind of heart is not an accident, it is bred. Lisa and Mary have a wonderful breeding program, not only that, but the time and love given to each pup is remarkable. Fringe will be 3 soon, she is in Masters in USDAA and my goal is to qualify for the USDAA National in 2013 with her. I will never be able to thank Lisa and Mary enough for my Merle Girl. I also have a very large family of On Target and Off On friends now. We all support each other and cheer each other on. I am truly blessed to be a part of this family.
