

Thank you so much for having us out there. We can't say enough how impressed we were with the temperament and health of your border collies. We wanted to give you some feedback as to why we are so enthusiastic about working with you.

1. First thing we noticed was how incredibly clean your property and house were. I would guess that you had some 30 dogs, half a dozen puppies, multiple birds, cats, etc, and we couldn't see any hair, feces, or urine, ANYWHERE. That is amazing. Even more amazing is that no where on your outside property did we see any dog feces.
2. Second was how organized the lives of the bc's was. You had expertly designed runs and a huge backyard for them to play in. At all points they were controlled and happy.
3. Your 14 y/o female was the healthiest and most active dog of that age and gender that I have ever seen. That is a testament to the superior genetics you have managed to breed into your bloodlines.
4. Your pups are raised in a strong, family type environment where their personalities are taken seriously and experience life both inside and out.
5. Your extensive knowledge and realism in addressing our needs and wants was very comforting. We looked into Smarty Paws, and were very happy you pointed us in that direction.
6. The early life of the puppies is very impressive. We couldn't believe how much you do to ensure they are mentally, physically, and emotionally developed in their first 8 weeks through exposure to all types of stimulus they will encounter throughout life.
7. The story you told Kari about taking back the puppy at any time shows that it is not about money and business to you. It is about doing the right thing and creating relationships and happy lives.

Those are just a few, but the top ones we could think of. Feel free to forward our comments if you have someone interested in adopting from you. We look forward to working with you and CAN'T WAIT until October.

Have a great weekend!

Hunter and Kari
