

I cannot thank Lisa enough for allowing me to have Graphic in my life. He is exactly what I was hoping for when I decided to buy a border collie puppy. He is very smart, has a ton of drive, loves to work and along with all of this is also very loving. He is excelling in his agility training and I look forward to competing with him very soon. This was my first experience buying a puppy from a breeder and Lisa has been very easy to deal with. She has answered my many questions I have had both before I got my puppy and after I got him home. I really appreciate that she wants to be involved with her puppies even after they go to their new homes. She has frequently asked for updates on how Graphic is doing and likes to see pictures and videos. This gives me confidence in how much she truly cares about each dog that she produces. I also feel she has gone above and beyond what she needed to with the help she has given me with some training on Graphic. She has given me lots of advice and I even visited her and she spent a couple days helping me with some training. While at her house, I had the opportunity to meet all of her dogs and to see how they live. I was so impressed with how friendly and well cared for all her dogs were, as well as, how clean and well maintained their house and yards were. Each and every one of the dogs happily greeted me and they were all well groomed and in good physical shape. They all live in the house but they also have a great yard arrangement to allow the dogs to get plenty of exercise. When I am ready for my next border collie, it will be another On Target puppy without a doubt.
