

Take Me Outside Teacher

Remy Rodden

Key of C
188 BPM in 3/4

C
we love you teacher, we love what you do
you help us to learn and to play **G**
G
you show us cool stuff, and you're fair and you're smart
we like to see you each day **C**
C
if there's one thing we'd change though, and it's not all your fault
its too much time spent inside school... **C7** **F**
there's a world to discover outside these walls **C**
being out there would be supercool... **G** **C**

C **G**
please take us outside teacher
please take us outside **C**
there's a world to discover outside these walls **C7** **F**
G **C**
so please take us outside

C
we know that you're busy and a bit overworked **G**
going out of the school seems a chore
G
but what if turns out we are better behaved **C**
and learn more and faster outdoors
C
you may have your doubts, but we know that we'll thrive
the research shows clearly it's true **C7** **F**
being outside in nature makes us happy and smart **C**
G **C**
please help us, we're counting on you

C **G**
please take us outside teacher
please take us outside **C**

there's a world to discover outside these walls
so please take us outside

we like our tablets, our TV, our phones
but the outdoors is so much more fun
we can learn from the trees and the grass and the bugs
get vitamin D from the sun
so next time you're making your plans for our class
be as place-based as you can be
there's a world to discover outside these walls
so we ask you so respectfully...

please take us outside teacher
please take us outside
there's a world to discover outside these walls
so please take us outside
