Your learning may be stifled by someone else's pedagogy  
<sup>C</sup> <sup>F</sup> <sup>C</sup>  
You may be yearning for more, a whispered calling you try to ignore

Get outside, break out of the maze, and let your Self be free

Let your best learning be wild

Let your finest thinking be free

May your connections with the land and people be

As wide as they are deep

Maybe you're sitting too much, your body wants to move  
<sup>F</sup> <sup>G</sup> <sup>C</sup> <sup>Am</sup> <sup>F</sup> <sup>G</sup>  
In sync with the rhythm of nature where there's nothing you have to prove  
<sup>C</sup> <sup>F</sup> <sup>C</sup>  
Leave the desk and screen behind, start to calm that controlling mind  
<sup>F</sup> <sup>G</sup> <sup>C</sup> <sup>Am</sup> <sup>F</sup> <sup>G</sup>  
Dance with the wind and the water and trees, and get back in a natural

groove

Let your best learning be wild  
 Let your finest thinking be free  
 May your connections with the land and people be  
 As wide as they are deep  
 May your spirit be filled with song  
 Your adventures go ever on  
 May your mantra be: "CURIOSITY"  
 Let your best learning be wild

You may be tired of all of the talk, of a strange vocabulary  
 Getting lost in the concepts of some new epistemology  
 The more-than-human is happy to share, you won't find any judgment there  
 In the quiet of wilderness self-willed land, you may find who you're destined  
 to be

Let your best learning be wild  
 Let your finest thinking be free  
 May your connections with the land and people be  
 As wide as they are deep  
 May your spirit be filled with song  
 Your adventures go ever on

May your mantra be: "CURIOSITY"  
Let your best learning be wild
