Rolling waves, salty sea, all this seems so familiar to me

In my blood, in my soul, I need the oceans to make me whole

A part of each and every breath, I carry you deep inside

Water here, in the air, part of the great ocean everywhere
G C G D G D Em D
From the streets out to the sea, water cycling endlessly

If it gets dirty along the way, the poisons end up on your shore
C D C Am
We're slowly taking the life from you, can't take you for granted anymore

G Em C D
'Cause we're connected to the ocean
G Em C D
We're connected, from sea to sea to sea

Full of life, deep and true, if only we all could be like you
G C G D G D C D
You give and give, home of our birth, keeping the balance for all of the earth
C D C D
Now's the time to give back to you, instead of just take and take
