

Motion #3

To introduce an 'All Breeds Award Of Excellence' for 2019 and leave the breed specific Dunfriú & Opposite Show Trophies unchanged.

put forward by Raelene Trimble Seconded by Michael Hodges

'All Breeds Award of Excellence'

Victorian show awards at All Breeds level are a great achievement and deserve to be recognised but I don't believe we can change the 47 year framework of the breed specific Dunfriú Show Trophy and Opposite Trophy as a change would mean the winners going forward would not be assessed under the same system which was intended to be breed specific. I am passionate about GSP's doing well at All Breeds level and agree this should be recognised. The success of Dogzonline has proved that an award that covers breed level and another award that covers All Breeds level works. So let's build on this successful framework. I believe the only solution that will keep the Dunfriú Show Trophy and Opposite Trophy tradition intact is to add another award to recognise achievements at All Breeds level.

I propose we leave the breed specific Dunfriú Show Trophy and Opposite Trophy scoring system as is and add an '**All Breeds Award of Excellence**' to reward achievements not covered by the current awards with the following point system:

For Victorian Shows with an entry over 1000

50 points for Best In Show
30 points for Runner Up In Show
20 points for Best In Group
10 points for Runner Up In Group
3 points Class In Group

For Victorian Shows with an entry over 500

30 points for Best In Show
20 points for Runner Up In Show
10 points for Best In Group
5 points for Runner Up In Group
2 points Class In Group

For Victorian Shows with an entry of fewer than 500

15 points for Best In Show
10 points for Runner Up In Show
5 points for Best In Group
3 points for Runner Up In Group
1 point Class In Group

Melbourne Royal

50 points Best In Show
30 points for Runner Up In Show
20 points for Best In Group (1)
15 points for Best In Group (2)
10 points for Best In Group (3)
5 points for Best In Group (4)
2 points Class In Show
1 point Class In Group

Highest point for each event applies and is not additional.
