## **Release and Hold Harmless Agreement**

Horseback riding and/or driving is classified as a rugged adventure recreational sport activity, and there are numerous obvious and non-obvious inherent risks always present in such activity despite all safety precautions. No horse is completely safe. Horses are 5 - 15 times larger, 20 - 40 times more powerful and 3 - 4 times faster than a human. If a rider falls from a horse to the ground the distance will generally be 3 ½ to 5 ½ feet, and the impact may result in injury to the rider. If a horse is frightened or provoked it may divert from it's training and act according to it's natural survival instincts which may include, but not be limited to; stopping short, changing directions, speeding at will, shifting weight from side to side, bucking, rearing, biting, kicking, or running from danger

Liability of injury, disability and death of riders and other persons caused by handling the horse during any term of training, lessons, leasing or participation in other horse related events or activities is the obligation of the undersigned. Whereas, the Undersigned acknowledges the inherent risks involved in riding and working around horses; risks which include bodily injury from using, riding or being in close proximity to horses, among other risks, and further, that both horse and rider can be injured in normal use or in competition and schooling.
