

Band Rider

Inputs:

2 - L & R looper
1 - Vocal
1 - Kick
1 - Snare
2 - Toms
2 - Overheads

PA

Jay's looper set requires a PA with subwoofers appropriate for the size of the room. A vocal PA is unsuitable. A conversation before a booking will be required.

Stage Area:

1.6 depth x 2.2 length

Monitors:

Jay uses near monitors but a stereo mix back to his mixer would be ideal

Set up time including load in:

60 mins

Sound Check

15 mins

Incidentals:

1. Payment must be agreed on before the performance
2. One bottle of water for the performance
3. Absolutely no recordings unless permission is granted. This includes record keeping.
4. A suitable place for merchandise where traffic will be.
5. A small table
6. Wireless internet (if possible).
