

# MEMORIES WE'LL HAVE

Words & Music by Kaitlyn E. Gerber

## Verse 1

You groan as I pull out my phone  
and tell you to pose  
You're shy but you can't hide a smile  
and do as you're told  
A sunset on a summer day,  
the way the wind blows through a field of grain  
why do I stop and aim?

## Chorus

I'm thinking ahead to the memories we'll have  
Of a moment we're only just making  
A quick flash in time it will later remind us  
Of one moment always unchanging  
I'm thinking ahead to the memories we'll have

## Verse 2

That shot as you leap off the dock  
caught you running wild  
The one where you first held our son  
caught love at first sight  
A Christmas tree lit up in lights  
fireworks on a warm first of July  
And you there every time
