

Fountain Of Fortune

Spirits of earth and sky
Could you teach me to fly?
To be one with the birds
Free to disappear
Free to evolve

As the small ripple grows
It has more to oppose
But I'll stay dignified
With you as my guide
Carve me a path
I'm in need of something new

Fountain of fortune
Spring for me now
And let me drink the waters
Hear the glistening sound
I put my trust in you

In the end we are one
All birds and beasts beneath the sun
And we've all much to give, while our spirits live
While we believe
If you hold an idea
Do not live life in fear
Plant the seed, nurture it
Give it time to grow
You'll see it bloom

I'm still searching for the seed

Fountain of fortune
Flow for me now
Reflect to me the person
Who I'm meant to be
I put my trust in you

I'll forever climb
Till I hear the bells chime

Fountain of fortune
Spring for me now
And let me drink the waters
Hear the glistening sound
I put my trust in you
Fountain of fortune
Flow for me now
We have but only one life
So please let it count
Spirits surrounding

Witness all I leave behind
When I leave this life

So guide me with your gentle touch
