## KITTEN PLACEMENT QUESTIONNAIRE

The following questions are being asked to help us determine the right kitten for you and to give us confidence that our kittens are being placed in the best homes possible. The placement of each kitten is made by bringing the various requirements of both the kitten and new owner into perspective. No single answer will disqualify you from being eligible for one of our kittens but we must both be comfortable with the answers before we continue.

***I hope you will agree that the animal's welfare must be our foremost consideration in considering any placement.***
