

COMPASS Program

Physician Reference Card

About the COMPASS Program

At Interpace Diagnostics, we are committed to providing patients with access to personalized medicine, regardless of their personal financial situation.

Since coverage differs by insurance plan, Interpace Diagnostics has implemented the COMPASS* Program, which offers needs-based financial assistance and payment plans. All molecular tests provided by Interpace Diagnostics are covered under the COMPASS Program.

Financial Assistance

Interpace Diagnostics tailors financial assistance solutions for patients, accounting for factors such as income and family unit size. Tiered discounts are based on guidelines provided by the US Department of Health and Human Services and can be as much as 100% of your amount due. All patients are encouraged to apply.

*COMPASS is not available to patients covered by Medicare, Medicaid, or any other government program, or where the program is restricted or prohibited by contractual obligation, or federal or state law. COMPASS is only available to patients within the United States.

COMPASS INCOME GUIDELINES FOR 2019*

Size of Family Unit	Maximum Income
