

COMPANY OVERVIEW

MyDx, Inc. (OTCQB:MYDX) is a science and technology company based in San Diego, California, that has created MyDx which is the first battery operated, handheld, electronic analyzer for consumers. The company's mission is to empower people to live a healthier life by revealing the chemicals in what they eat, drink and inhale. MyDx uses nanotechnology to accurately measure chemicals of interest and has multiple sensors being developed in its lab that are compatible with the MyDx App.
