

Alice serves as senior vice-president and chief corporate officer at Cameco, one of the largest global providers of the fuel needed to energize a clean-air world. She has held diverse and increasingly senior leadership roles at the company for more than 30 years. She provides executive oversight for human resources, safety, health, environment, quality, information technology, supply chain management, regulatory affairs, internal audit and corporate ethics. She is also providing executive oversight and leadership to enhance the company's sustainability approach to meet evolving ESG requirements and is the executive sponsor of the company's digital transformation journey.

She has been integral in Cameco's position as a leading industrial employer of Indigenous peoples in Canada. She also provided leadership for ground-breaking collaboration agreements with Cameco's home communities in the north – focusing on workforce development, business development, environmental stewardship, community engagement and community investment.

She has guided Cameco's multiple Canadian operations through complex regulatory/licensing systems and upheld safety and environmental performance at the highest level, resulting in longer license terms for Cameco's operations.

She is a tireless advocate for advancing women and championing inclusion in the workplace. In recognition of these efforts, she received a Catalyst Champions Business Leader award in 2021.

She holds a Master of Arts (Economics) and Bachelor of Commerce, from the University of Saskatchewan and the Corporate Directors Designation (ICD.D).
