

QF Installation Fee

	Net Metering		No Net Metering
	Minimum Charge Under 10 KVA Nameplate (Level 1)	Minimum Charge Between 10 to 49 KVA Nameplate (Level 2)	Charges Between 50 KVA - 150 KVA Nameplate (Level 3 & 4)
Engineering	\$95	\$190	Costs are site dependant
Renewable Energy Services	\$322	\$563	
Billing	\$50	\$100	
Metering	\$250	\$1,600	
Member Service			
Total	<u>\$717</u>	<u>\$2,453</u>	

Comments on charges:

- Engineering:** Evaluate and make recommended changes on location dealing with line fault data/sectionalizing faults and capacity of existing line
- Renewable Energy Services**
- 1) Evaluate interconnection review safety checks with engineering
 - 2) Site visit is required before interconnection (safety checks)
- Billing:**
- 1) Setup billing files
- Metering:**
- 1) Design metering package - metering includes advanced net metering package with cellular or RF meter communication interface
- Member Service:**
- 1) Stake distribution improvements for interconnection
- Notes:**
- Please note that minimum payment must be returned with application submission prior to the start of any QF Interconnection activities.
- All projects 150 KW and over will be subject to interconnection and accreditation studies as required by wholesale energy supplier (G&T).
