## Coupon Policy

Sherm's stores take manufacturer coupons and valid internet coupons for the items that we carry.

Coupons should have an expiration date and will not be accepted if expired.

Coupons will only be accepted up to the value of the item being purchased and not for a value above it. No cash will be given back if the face value of the coupon is greater than the sales price of an item.

We do not honor other stores coupons that are specifically good at that group of stores. We do not double or triple coupons.

All coupons must be presented at the time of purchase.

On internet coupons, we do ask that our clerks have managers review internet coupons that are for free product or for a high dollar amount. This is due to several fraudulent coupons that are circulating the internet.

If you have a question while shopping, please ask for a manager.
