

**Dream Homes****Chelsea \$3.495 million**

Let's talk about the space — the parking space, that is. Move in to this condo home on West 17th Street, and — that's right — you'll have the option to add a private parking space in the building's own garage. And even if driving's not your thing, you'll find relaxation in this "peaceful" two-bedroom, two-bathroom "oasis," which happens to include a 1,000-plus-square-foot private terrace with direct access to "bright blue skies." Ahh. Inside, there are "natural oak" hardwood floors to "accentuate the scale" of the apartment, which also offers a dining area, a bright, white, "modern" kitchen and a "cheerful" living room. All of which should make you forget about your car. Agent: Natalie Rakowski, Core, 212-726-0779
