DISCUSSION regarding the restructuring and renaming of the Housing and Neighborhood Development Department (HND) as the Department of Neighborhood Relations, was presented.

Jim Colson, City Manager reported over the past two and a half years there have been ongoing discussions on how the City could work more closely and effectively with neighborhoods. He stated Mayor Wolgast challenged him to resolve the issue and in response to
the challenge the City conducted two neighborhood summits, attended many Neighborhood Improvement Association meetings, Citizen Advisory Council meetings and engaged the community to help gather input on how to reduce redundancy and improve communication between the City of Topeka and the neighborhoods. He reported the reorganization would be the first phase in finalizing the pilot program. He briefly described restructuring the Housing and Neighborhood Development Department and the specific development of the Community Engagement Division, as well as, the complete overhaul of the Property Maintenance Division, formerly Code Compliance.

Sasha Stiles, Director of Neighborhood Relations, facilitated the discussion by providing a brief overview of overall 2015 Department goals and the services provided in housing; community engagement; development services; property maintenance and regulatory compliance. She introduced Corrie Wright, Division Director of Housing Services; Monique Glaude, Division Director of Community Engagement; Richard Faulkner, Division Director of Property Code and Development Services; and Brad Reiff, Division Director of Regulatory Compliance.

Mayor Wolgast asked that a similar report be presented on the Property Maintenance Division.

Sasha Stiles reported the Code Compliance supervisor has passed the certification as required by the 2012 International Property Maintenance Code (IPMC) and is currently training three inspectors for certification. She reported she would be meeting with the Neighborhood Task Force on February 18, 2015, to specifically focus on the issue.

Councilmember Ortiz requested the City consider creating a position for a grant writer to acquire grant money to help clean up neighborhoods.
Jim Colson reported grant writing will be incorporated in the City’s overall plan in the near future.

Councilmember Brown expressed his appreciation for the presentation and stated it clarifies the proposed changes by providing each division’s focus, goals and outcomes.

Councilmember Schwartz stated she concurs with Councilmember Ortiz and the need to pursue grant funding. She stated she would like to know more information about Animal Control and the Property Maintenance Division.

Jim Colson stated Animal Control would stay under the direction of the Topeka Police Department; and the Property Maintenance Division was closely reviewed and it was determined it would fit best in the Department of Neighborhood Relations.

Councilmember Hiller stated she agrees with the reorganization and is impressed with the plan. She suggested the City consider a grant writing position because there are many neighborhoods interested in receiving grant funding, as well as, it would provide an opportunity to utilize any and all funding available to the City. She stated she would hope neighborhood development would not just focus on federal guidelines but also on becoming self-directed and self-sustained. She suggested the ordinance include full descriptions of each division; and the neighborhood rules and regulations be structured differently so neighborhoods are less dependent upon the City.

Mayor Wolgast requested a copy of the presentation, including a biography on Richard Faulkner, Director of Property Code and Development Services, be provided to Governing Body members.
Councilmember Brown encouraged the City to increase involvement with the Neighborhood Task Force, a division of the Community Action Council in 2015, in order to continue to improve communications with neighborhoods.

Joseph Ledbetter commented on the Hi-Crest area and stated he believes it is a very innovative, involved and unified neighborhood to take on the City and other forces. He reported he received the Department of Neighborhood Relations reorganization chart; however, he has not yet seen position descriptions. He referenced an email correspondence sent to Councilmembers from Betty Phillips expressing her concern with the ordinance. He stated he believes many NIAs should look to their own leadership for guidance to help improve neighborhoods.
