(Z14/4)

Bill Fiander, Planning Department Director, reported approval would allow for light industrial uses including outside storage on property located at 3311 NW Lower Silver Lake Road. He stated the Council remanded the zoning case back to the Planning Commission to consider outdoor storage screening requirements; however, the Planning Commission re-affirmed their original recommendation for “I-1” Light Industrial District and indicated the applicant should be treated in an equitable manner as other nearby industrial properties. He also
stated staff recommends approval of the “PUD” Planned Unit Development option with screening requirements.

Councilmember Brown spoke in support of the “PUD” option with screening requirements.

Councilmember Schmidt stated the Planning Department is in the process of introducing upgraded standards for the Council to consider in the near future; therefore, the “PUD” is the best option at this time.

Councilmember Schmidt moved to adopt the ordinance. The motion was seconded by Councilmember De La Isla.

Councilmember Brown made a substitute motion to adopt the ordinance authorizing the “PUD” Planned Unit Development option as recommended by the Planning Department. The motion was seconded by Councilmember Schmidt.

APPROVAL of a Workout Agreement, effective April 25, 2014, between CoreFirst Bank and Trust, Lender, and the Jayhawk Racing Properties, L.L.C., Heartland Park Raceway, L.L.C., the City of Topeka, Kansas, and Raymond Irwin was presented. (Contract No. 43732)

Jim Colson, City Manager, reported the workout agreement and the memorandum of understanding are the beginning of a process to continue and enhance the viability and stability of Heartland Park Topeka to assure the economic benefit created by Heartland Park activities. He stated two formal public meetings would be scheduled so the Governing Body and the
community are fully engaged in the process. He noted there is no tax increases associated with the project; however, the issue is to reallocate and redistribute taxes from the State to the City based on a formula. He also stated there are not enough revenues to pay the obligation of $10.8 million of STAR bond debt; therefore, the City would use general obligation bonds to repay the STAR bonds which would allow the City to service current and incremental debt.

Chad Sublet, City Attorney, gave a brief summary of the workout agreement and memorandum of understanding. He stated approval would not authorize issuance of STAR bonds; however, it would allow the City the benefit to capture the State’s portion of taxes and move forward with the bond process. He reported the financial projections in the approximate amount of $17 million (Attachment A); the workout agreement would require 17 steps before the process is complete; and would allow Mr. Irwin to operate Heartland Park through February 2015.

Councilmember Schmidt stated the workout agreement is the first step in the process and would eventually save approximately $9 million over the next 12 years as opposed to paying the interest on the current bonds and risking the loss of a business that generates a significant amount of economic development funds.

Councilmember Hiller stated the workout agreement and memorandum of understanding are contingent upon one another. She commended the work that has been done to resolve an issue that seemed nearly impossible.

Councilmember De La Isla expressed appreciation to staff for the work done and stated there has been a lot of concern voiced by the community regarding Heartland Park and the City’s involvement. She commented on neutralizing the City’s (taxpayer) debt and how these actions help the City remain in a neutral financial state.
Jim Colson stated the actions taken were as close as the City could come to “risk-free”, as well as, it helped all parties involved.

Raymond Irwin, owner of Heartland Park, commended the Kansas Secretary of Commerce, Topeka City Manager and Topeka City Attorney because they were able to capture an area contiguous to the area for economic development purposes. He reported Heartland Park generates economic development dollars throughout the city; however, the Park is not geographically situated to capture economic funds in the same manner as the Kansas Speedway located in Kansas City, Kansas.

Jack Woelfel stated he believes this is a government bailout to pay the financial obligations of the Heartland Park organization. He questioned the urgency of the situation and asked if the City would do the same for small businesses. He encouraged the Council to disapprove the workout agreement.

Kurt Young, Topeka Lodging Association, thanked all the people involved in the deal and stated the Topeka Lodging Association has a long history of supporting Heartland Park. He reported Heartland Park generates approximately 250 event days annually for the lodging industry and the loss of the Park would create major hurdles for Topeka.

Tod Bunting, former Adjutant General of Kansas, spoke in support of Heartland Park and the continued operations of the Park. He stated the military fully supports Heartland Park and encouraged the Governing Body to find a way to retain this local and national treasure.

Joseph Ledbetter expressed concern with the agreement and transparency of the process. He spoke in support of Heartland Park; however, he asked if projections have been fully reviewed; why is the matter so urgent; and if there would be public forums to discuss the issue. He stated he believes it is not in the City’s best interest to own Heartland Park.
Councilmember Schmidt stated he agrees mistakes have been made in the past regarding Heartland Park; however, the projected numbers are based on the collected revenue which make the agreement much less risky and offers a solution to the issue. He spoke in support of the proposal and noted the intent moving forward should be as transparent as possible.

Councilmember Everhart stated she concurs with Councilmember Schmidt and disagrees that it is a government bailout but rather a solution for the citizens of Topeka.

Councilmember Hiller asked the City Manager to comment on proposed public meetings. Jim Colson stated meetings would be announced on the City’s website, as well as, all documents associated with the issue would be posted on the City’s website to assure the public is well informed.

Councilmember Schmidt moved to approve the workout agreement. The motion seconded by Councilmember Harmon carried. Councilmember Ortiz voted “no.” (7-1-0)

APPROVAL of a Memorandum of Understanding between the City of Topeka, Kansas, a municipal corporation of Shawnee County, Kansas, Visit Topeka, Inc., Jayhawk Racing Properties, L.L.C., and the Kansas Department of Commerce was presented. *(Contract No. 43733)*

Raymond Irwin, owner of Heartland Park, expressed concern with Heartland Park’s employees and contracted services totaling $900,000 and operations totaling $1 million and stated the issue is important to the economy and citizens of Topeka.

Jack Woelfel expressed concern with the City having no legal recourse in the memorandum of understanding and believes that the entertainment business is not a core function of local government.
Joseph Ledbetter commented on JEDO meeting minutes from August 25, 2004, and cautioned the City to become educated in the process. He stated he understands this is a tough situation; however, he believes there should be transparency and public input in the process.

Councilmember Everhart spoke in support of the memorandum of understanding and stated it is the best approach to the situation. She noted the City should fully explore an end to the situation so the City is not acquiring additional debt.

Councilmember Hiller asked what the next step in the process would be.

Jim Colson, City Manager, stated the sale of Heartland Park would be to an operator under an independent agreement as the City has no intent to operate the facility.

Councilmember Schmidt moved to approve the memorandum of understanding. The motion seconded by Councilmember Brown carried. Councilmember Ortiz voted “no.” (7-1-0)
