ORDINANCE NO. 17880 introduced by Mayor Felker approving and adopting the operating budget for the City of Topeka, for the year 2003, and appropriating the amounts for the purpose as set forth therein was presented for first and final reading.

Councilmember Duffy submitted suggestions for the budget amendments to begin City Council deliberations. He explained that due to the fact that the State of Kansas failed to provide approximately $480,000 to the City of Topeka from the Local Ad Valorem Tax Reduction Fund and the County/City Revenue Sharing Fund as required by State Statute, that would result in an increase of approximately .562 mills above last year’s mill levy of 32.447. He stated that he would offer the first five suggestions as one amendment to the operating budget, and the last two as one amendment to the Capital Budget. The suggested amendments are as follows:

1) A technical adjustment eliminating $31,611 due to the double counting of a salary in the Police Department’s budget
2) Eliminating enhancements totaling $468,140 (Fire Dept. position $70,856, Finance Dept. position $42,073, Retirement Reserve Balance $206,400, Absorb Summer Internship into TTYEP $69,247, Remove Y&SS added in 2002 as offset to CDBG $79,464)

3) Increase the "shrinkage" rate from 2.5% to 5.0% totaling $1,604,760

4) Allocate $74,000 Transient Guest Tax fund to the Parks and Recreation Fund and shift $100,000 from Topeka Convention Visitors Bureau Fund to the City Council

5) Redistribute $2,100,000 of the 1998 1/4 cent sales tax as follows: $178,650 Willow Street Bridge (GO Bond); $180,000 West 2nd Street Bridge (GO Bond); $160,000 TPAC Roof (GO Bond); $250,000 Irrigation and Electrical (GO Bond); $750,000 Streetscape (GO Bond); $350,000 DTI ($227,040) and $200,000 Affordable Housing ($217,752)

6) Defer the following CIP items for consideration at a later date (eliminated commitment to a 6.37 mill levy increase): all new FY2005-2009 items; Sumner School; Animal Shelter; Elephant/Hippo Improvement; STP Safety – 3rd and Topeka and 17th and Belle, and Indiana 10th to 11th improvements

7) Add Kansas Avenue Bridge to Kansas Avenue flyoff and I-70 intersection, and finance from sales tax. He stated in summary, the mill levy would be 32.931, ending balance 10%, debt service reduced 0.154 mills in 2003 and 0.915 mills in 2004.

Councilmember Dunn moved to include the first five amendments to the budget as stated by Councilmember Duffy. The motion was seconded by Councilmember Duffy.
Councilmember Lane stated that he is uncomfortable with amendment number five because it deviates from how the 1/4 cent sales tax would be used as stated on the ballot.

Councilmember Duffy noted that a policy decision was made last year to allocate the money for bridge projects and economic development. He stated that was the purpose of being very specific in reallocating that money so that they stayed within the guidelines of what they believed was the intent of the voters.

Councilmember Alcala stated that last year when the City Council was allocating money the economic development program was not discussed, however, the Topeka Boulevard Bridge was. He feels that using the funds for other reasons than what was stated violates the public trust, and also creates a big risk because of the current lawsuit regarding the use of these funds.

Councilmember Stubbs stated that last year they allocated $800,000 to the Go Topeka Program clarifying that the use of funds were intended for economic development as well as bridges.

Several Councilmembers continued discussion on the pros and cons of using the sales tax to fund the Topeka Boulevard Bridge.

Councilmember Alcala raised the concern that the sales tax question may not get on the ballot. He stated that there are no assurances since it would have to go before the state legislature or involve the cooperation of the county.

Discussion continued regarding the remaining proposed amendments. Several Councilmembers stressed the importance of allocating money into the downtown area to help regenerate the foot traffic by investing in more housing, office space, and retail businesses. The increase in "shrinkage" will enable the city to utilize the manpower that already exists, to cut new or vacant positions implementing better leadership through the comparability study.
Councilmember Alcala moved to amend item two to transfer the $70,956 from the Housing and Credit Counseling Fund for the new fire department position, and place the balance of the money in the General Fund. The motion was seconded by Councilmember Dunn.

Dennis Phillips, Fire Department Chief appeared for questions.

Darrell Dibbern, City of Topeka Fire Marshall stated that he would like to see this position filled. If this position would be filled it would allow for cut backs in overtime and enable the TFD to investigate arson cases more efficiently.

Councilmember Duffy stated that he opposed the new position at this time and challenges department heads to optimize.

Several Councilmembers stated that they agree with Councilmember Duffy and challenge every department to restructure and reorganize, utilize the employees that we already have, and utilize the resources that we have while considering the nations economic condition.

Richard Forester, Topeka Convention Visitors Bureau appeared to respond to questions about the Transient Guest Tax Fund.

Several Councilmembers stated that they would like to have more control over the TGT Funds and how they are allocated.

Randy Bailes, Finance Director explained that if the money from the Transient Guest Tax Fund is transferred to the Parks and Recreation Department it would not give that department more spending money it would only give them more revenue to be taxed on.

Councilmember Alcala made a motion to divide the question. The motion seconded by Councilmember Lane carried. Councilmember Hecht and Price voted "no". (7-2-0)
