In response, Jim Parish stated that he spoke with several of the business owners in the hotel industry and they feel that a petition is not the best action to take at this time. They are more interested in presenting the overall effect it will have on the industry, not just the funding that is involved.

RESOLUTION NO. 7270 introduced by Mayor Harry Felker relating to a grant application for the Hi-Crest Neighborhood Plan was presented.

A COMMUNICATION and request to fund planning study was presented.
David Thurbon, Planning Director gave the staff report.

Randy Speaker, Housing and Neighborhood Development Director explained why the communication was on the agenda and why they were not recommending approval.

Several Councilmembers discussed the financial implications and the effect this project would have on the community and the importance of following through on a project of this magnitude.

Randy Speaker stated that he understands the importance of the project and keeping a good business relationship with the company, however he cannot support this communication because he feels that authorizing the funds for phase II does not fully utilize HND funds. The problem is the amount of money invested in the planning and development process of this project, not the working relationship with Botwin & Company.

Several Councilmembers expressed their appreciation for the efforts that Mr. Speaker has made towards correcting the problems within the HND Department. However, they were also concerned for Botwin & Company and the financial position it would leave them in if the City of Topeka would withdraw from the agreement. They felt that every effort should be made to accommodate the developer and that this is an opportunity that the City of Topeka should not pass up.

Mayor Felker stated that every effort would be made to help implement this business agreement in an ethical and correct manner.

Betty Phillips, Hi-Crest resident appeared in support of the communication and distributed comments from neighborhood residents.

Joseph Ledbetter, Hi-Crest resident appeared in support of the communication.
Diane Alpert, owner and operator of Botwin & Company explained her position regarding the grant application and financial investments that are involved with this agreement. She stated that at this point the City of Topeka must agree to the basic terms of the agreement or Botwin & Company will not proceed with the development. She currently has approximately $15,000 invested in the planning and developing of this property and has not seen any reimbursement of funds from the city, and does not understand why the city would not want to benefit from conducting a feasibility study.

Josh Sheldon, architect of the applicant explained the feasibility study.

Councilmember Alcala moved to vote on the communication and the resolution separately. The motion was seconded by Councilmember Lane.

Councilmember Alcala withdrew his motion after the Mayor stated that the items were listed separately on the agenda.

Councilmember Dunn made a motion to direct staff to come up with $35,000 from whatever source is necessary for this project. The motion was seconded by Councilmember Duffy.

Councilmember Duffy moved to make a friendly amendment to the new agreement to stay within the terms and guidelines of the March 27, 2002 agreement.

Councilmember Lane called the question.

Councilmember Stubbs challenged the call.

Mayor Felker asked the Council to vote on if the question should be called.

The motion to use $15,000 from the general fund and re-negotiate the original agreement carried unanimously. (9-0-0)

Councilmember Lane moved to adopt the resolution. The motion seconded by Councilmember Dunn carried unanimously. (9-0-0)

A RESOLUTION introduced by Mayor Harry Felker amending the adopted 2003-2004 Capital Budget for the City of Topeka, Kansas, and rescinding City of Topeka Resolution No. 7255 was presented.

Councilmember Duffy stated that both items presented are very important issues but there are still some concerns with the process that have not been resolved.

Councilmember Lane stated that he understands his concerns but the reason these two items were brought before the Council is because they are time sensitive and the state would cover ninety percent of the cost on the projects.

Dave Graverson, acting Chief Administrative Officer explained that the projects were presented and reviewed by the committee to help alleviate any questions the Council might have, and because there is not an official procedure to follow when placing projects back into the City's CIB fund.
Councilmember Hill moved to defer the resolution one week. The motion seconded by Councilmember Dunn carried. Councilmembers Stubbs and Price voted "no". (7-2-0)
