ORDINANCE NO. 18536 introduced by Councilmember Lana Kennedy amending City of Topeka Code Section 18-157 to require owners, keepers and harborers of Pit Bull dogs to obtain and maintain certain specific types and amounts of insurance and specifically repealing said original section placed on first reading July 12, 2005 was again presented.

Councilmember Kennedy commented on the committee report.
Councilmember Preisner gave the committee report and stated that the ordinance was removed from the Public, Health and Safety Committee “Without Recommendation” by a vote of 3-0-0 on October 24, 2005.

Brenden Long, City Attorney suggested that they amend the ordinance as follows.

- Delete Section 1(a) in its entirety
- Amend the requirements of the ordinance by including the word “microchipping” on line 31
- Amend line 39 by adding the statement, “No animal shall be released from confinement until a microchip has been implanted.”

Councilmember Preisner asked if the new language would guarantee that a microchip would be in place before a Pit Bull dog or vicious animal is released to the owner.

Brenden Long confirmed that the new language would make microchipping a requirement.

Councilmember Kennedy moved to amend the ordinance as stated by the City Attorney. The motion was seconded by Councilmember Preisner.

Councilmember Haynes asked how the new requirements would be enforced.

Brenden Long stated that the regulation would be enforced as soon as the animal is picked up.

Neil Dobler, City Manager stated that a microchip would connect a dog to the owner enabling the City to penalize the owner when necessary.

Councilmember Harmon asked if they should clarify the definition of “animal”.

Brenden Long stated that he believes that further definition is not necessary because the language as stated in the ordinance deals directly with vicious animals and Pit Bull dogs in relation to the word “animal”.
Councilmember Duffy stated that he is confident that the new language deals with the majority of the concerns raised at committee meetings. He also stated that because penalty guidelines have already been established the challenge will come with the enforcement, which cannot be avoided.

Councilmember Haynes asked for clarification regarding destruction of an animal.

Brenden Long stated that an animal can only be destroyed if it is proven to be “vicious”.

Councilmember Kennedy stated that Pit Bull dog liability insurance can no longer be obtained through insurance agencies, therefore, she believes that microchipping is a fair compromise for Pit Bull dog owners inside city limits.

pedestrians. He also stated that the intersection is a huge liability issue for the City and he encouraged everyone to pay special attention regarding the safety of others.

Mike Teply, Acting Public Works Director stated that they would install a new traffic signal, and continue to monitor the intersection to see what other safety devices may be needed.

Councilmember Alcala suggested installing a count down timer that would inform pedestrians the amount of time they have to cross the intersection.
