Councilmember Kennedy asked if the project could be paid out of cash instead of through general obligation bonds.

Jim Langford, Budget and Finance Director stated that it would have to be the Council’s decision to deduct the money from the general fund. He stated that it would reduce the general fund by $800,000, which is a considerable amount.

Councilmember Alcala expressed his concern about the programming at the centers. He stated that it should be reviewed periodically to get the greatest participation.

Councilmember Duffy stated that he believes that the number of participates is lower than usual because the community centers have been closed periodically due to upgrades. Neil Dobler, Public Works Director noted that there were four components covered in the Fact finder’s letter of clarification. He stated that Column F, the competency-based pay plan raised the most questions. He also stated that because WPC has been fully ascribed to the competency-based pay plan since 2001, they have agreed to the fact finder’s recommendations to accept the plan, and move forward.
Councilmember Duffy gave an explanation of his motion. He stated that it was Column B and Column D in the handout, and if necessary he would explain the 2.1 percent raise for employees in the competency-based pay plan. He also stated that he has two fundamental issues with Management’s position, (1) WPC employees would receive a 12 percent pay increase and, (2) employees who chose not to improve their skill level would receive a higher pay raise than those who did.

Councilmember Duffy moved to provide a 2.1 percent COLA increase for all employees, and provide the $18,907.20 for the skill level increases. The motion was seconded by Councilmember Nave.

Councilmember Blackburn stated that he concurs with Councilmember Duffy. He also stated that he supports the motion because it is very important to reward those employees who work to improve their skills.

Neil Dobler stated that both sides have agreed to Columns B, C and D.

Councilmember Haynes stated that he would support the fact finder’s recommendations.

Councilmember Alcala stated that he would like confirmation from the Union that they agree to the terms.

Jerry Powell, Union Representative stated that the Union agrees to the terms. He also clarified that they do not disagree with the competency-based pay plan, they just want to insure that the City of Topeka WPC employees receive the proper step increases so they are on the same pay level as other people in the area.

Councilmember Ortiz asked if the terms would place them on an equal pay scale.

Councilmember Blackburn asked if they were getting both, a merit and longevity based step.
Neil Dobler stated that the agreement would place the City of Topeka WPC employees on the same pay scale as others in the area. He also stated that they would receive both merit and longevity based steps.

The motion to provide a 2.1 percent COLA increase for all employees, and provide the $18,907.20 for the skill level increases carried. Councilmembers Nave, Haynes, Preisner and Harmon voted "no". (5-4-0)

Councilmember Ortiz stated that she was not on the Council in 2004 when the policy was initiated. She also stated that she has several questions that need to be addressed in committee, including implementation.

Councilmember Duffy stated that they are working on a way to make it enforceable.

Councilmember Kennedy made a substitute motion to refer the resolution to the Economic and Community Development Committee. The motion seconded by Councilmember Ortiz carried. Councilmembers Nave and Harmon voted "no". (7-2-0)

Councilmember Alcala stated that he would not support putting the resolution in committee because the Council should not create a policy around one issue.

Mayor Bunten stated that the request was only to place a plague with appropriate words to remember Karen Harkness, not to create policy. He encouraged the council to support the resolution and not place it in committee. He stated that a policy could be established at a later date.

Neil Dobler, Public Works Director stated that the motion was to approve Column B and Column E.

Councilmember Alcala moved to approve Columns B, C, D and F. The motion seconded by Councilmember Ortiz.

Councilmember Duffy stated that he would oppose the motion because the objective is to have a skilled-based work force. He explained that the amount of the increase for some would not be included in the competency based plan.

Councilmember Haynes stated that he believes they should think about going against the recommendation of the fact finder whether it is for, or against the City.

Councilmember Blackburn stated that he would not support the motion because it is either merit based or longevity based. He also stated that he is not obliged to agree with the fact finder.

The motion to approve Columns B, C, D and F carried. Councilmembers Duffy and Blackburn voted “no”. (7-2-0)
